ONE AMERICA MOVEMENT

The work of pluralism is about creating a future where we can get rid of that toxicity, and help all Americans see themselves as part of a united, stronger country.

The One America Movement's work is building that kind of country. The future that we're working towards at One America is a future where all Americans are working together on issues that matter. We're rolling up our sleeves and getting to work on the things that really impact us, because we've put aside the toxic forms of division that divide us, really for political gain and profit. But we come together in a way that's meaningful, that grapples with our past, that deals with real divisions that matter, real disagreements, but moves us all forward to a future that belongs to all of us.
